Line Graph

Input File: line.txt

You are currently learning how to graph lines in Algebra class using the formula $y = mx + b$. Given the m, x, and b values, your job is to find the y value.

Input:

The first line contains an integer N. The following N lines contain three space-separated integers representing m, x, and b, respectively.

Output:

Output the y value on a separate line for each test case. Your answer will be an integer.

Example Input:

```
3
2 3 4
-10 0 8
5 -5 -6
```

Example Output:

```
10
8
-31
```
